Email: liiran@link.cuhk.edu.hk | Phone: +(852) 6487 9016 | Website: <https://elaine-ran-li.github.io/>

Address: 951 CYT, 12 Chak Cheung Street, Shatin, Hong Kong

EDUCATION

Ph.D. candidate in Information Systems	2022 – 2026 (Expected)
• Department of Decisions, Operations and Technology, The Chinese University of Hong Kong	
Ph.D. candidate in Information Systems (Transferred to CUHK with Supervisor)	2019-2022
• Department of Information Systems, City University of Hong Kong	
M.S. in Management	2016-2019
• School of Management, Huazhong University of Science and Technology	
B.S. in Management	2012-2016
• School of Management, Huazhong University of Science and Technology	

RESEARCH INTERESTS

Areas	Digital Entrepreneurship, Fintech, Open Innovation on Digital Platform, Generative AI
Methodologies	Econometrics, Machine Learning, Lab Experiment, Field Experiment

RESEARCH

Working Paper

1. **Ran Li**, Yang Liu, Zhiya Zuo, Weiquan Wang. Emergent Fashionable Digital Technologies and Legitimacy for Digital Ventures in Nascent Markets: Evidence from the Web3 Industry. *Major Revision* at *MIS Quarterly* (UTD24)
 - Under 2nd Round Review
 - Selected for presentation at *PolyU Jointed University Summer Workshop on Information Systems 2023 (JUSWIS 2023)*, *HKU Jointed University Summer Workshop on Information Systems 2024 (JUSWIS 2024)*
2. Yang Liu, **Ran Li**, Weiquan Wang. “Open Source” in Crowdsourcing Contests: A Knowledge Reuse Perspective.
 - Manuscript available upon request; Target journal: *Management Science*
 - Selected for presentation at *PolyU Jointed University Summer Workshop on Information Systems 2023 (JUSWIS 2023)*, *HKU Jointed University Summer Workshop on Information Systems 2024 (JUSWIS 2024)*
3. **Ran Li**, Zhiya Zuo, Weiquan Wang. A Curse in Disguise? Examining Upgradable Smart Contracts in Decentralized Applications. Work in Progress.
 - Selected for presentation at the *13th SIGBIT 2024 Workshop on Web3 Ecosystems and Artificial Intelligence (ICIS SIGBIT Workshop 2024)*
4. **Ran Li**, Di Wu, Yang Liu, Weiquan Wang. The Agent of Serendipity: How AI-Initiated Constructive Conflicts Influence Decision Satisfaction. Work in Progress.

- Under Review at *2026 Pacific Asia Conference on Information Systems (PACIS)*
- 5. **Ran Li**, Yang Liu, Wei-quan Wang. Platform Compatibility in Open Digital Platforms: A Study of Blockchain Ecosystems. Work in Progress.

Publications and Conference Proceedings

1. Jifeng Ma, Yaobin Lu, Yeming Gong, **Ran Li**. (2024). Diversity in online self-organizing teams: longitudinal evidence from an open innovation community. *Management Decision*, 62(1), 219-239.
2. **Ran Li**, Yaobin Lu, Jifeng Ma, Wei-quan Wang. (2021). Examining gifting behavior on live streaming platforms: An identity-based motivation model. *Information & Management*, 58(6), 103406.
 - Presented at *2019 Twenty-Third Pacific Asia Conference on Information Systems (PACIS)*, At: China Xi'an.
3. **Ran Li**, Han Li, Bowen Liu. (2015). Decipher the hidden secrets behind networks: Analyze the influence based on the co-author network. In *2015 International Conference on Computer Science and Applications (CSA)* (pp. 323-328). IEEE.

TEACHING

Teaching Interests

Management Information Systems, Database Management, Financial Technology and Blockchain

Teaching Experience

- ♦ Instructor, CB2500 Information Management, City University of Hong Kong – 2021 Spring, Fall 2021
 - ♦ 2021 Spring Evaluation: 6.12/7.0 (class size: 32)

SERVICES TO ACADEMIC COMMUNITY

Editorial Leadership

- ♦ Associate Editor, *Pacific Asia Conference on Information Systems (PACIS)*, 2026

Ad-hoc Reviewer

- ♦ *Electronic Commerce Research and Applications*
- ♦ *Asia Pacific Journal of Information Systems*
- ♦ *Journal of Marketing Communications*
- ♦ *International Conference on Information Systems (ICIS)*
- ♦ *Pacific Asia Conference on Information Systems (PACIS)*
- ♦ *Hawaii International Conference on System Sciences (HICSS)*
- ♦ *Conference on Information Systems and Technology (CIST)*
- ♦ *China Summer Workshop on Information Management (CSWIM)*
